

Department of City and Regional Planning

In line with the data of the international science of urbanism and the discipline of planning, the aim of the program is to educate students who can examine the economic, social and physical development of Turkey and can both guide and produce

decisions at all planning units on the organization of economic, social and physical spaces at all scales of human settlements.

Our department is the first of its kind in the field and has, via a curriculum sensitive to developments and changes in the world and the facts of the country, made the education of professionals with a broad point of view who observe just conduct in the organization of urban behaviour in the name of public-oriented sustainable life and progress its principle.

Our department has two divisions and its academic staff includes 6 professors, 3 associate professors, 12 assistant professors, 13 research assistants and 2 specialists.
