

## Department of Communication Design

The Communication Design Program is a 4-year undergraduate course which enables its students to comprehend the principles, theories and experiential dimensions of communication design.

The program aims to equip students with the knowledge and ability to organize and present ideas and information formed of text, image and sound in new digital media environments like video, interactive computer environments, multimedia, communication technologies and information transmission systems.

The program also carries out design work which presents the social and cultural aspect of communication in addition to seeking an intelligent resultant of the impact of sound, image and text.

Our academic staff includes 2 professors, 1 assistant professor, 2 teaching staff and 4 research assistants.
