

# Faculty of Education

## General Information

The Faculty of Education was founded in 2003 with the purpose of educating teachers, directors and specialists preferred by all educational institutions who will contribute to the determination of our national educational policies and become leaders in the information society.

Our faculty incorporates the Department of Educational Sciences, Department of Computer Education and Instructional Technologies and the Department of Foreign Language Education. Department of Educational Sciences offers graduate programs\* whereas the other two departments offer undergraduate programs.

The active educational environment of our faculty is supported by educational technologies and assists in teaching creative thinking, problem solving and assuming responsibility to educational candidates. Our faculty meticulously updates theoretical and practical education in all fields and levels.
