

## Department of Marine Engineering Operations

Department of Marine Engineering Operations, founded in 2008 under the Faculty of Mechanics, is a brand new department whose root in YTU goes back to 1969. The aim of the department is to educate and train marine engineers under the IMO regulations who will work in the activities of operation of machinery plants in ships and land plants as well as their maintenance, repair and management.

Our graduates are employed in the establishments mainly in marine industry. They also work in classification and insurance societies, ship maintenance and repair work fields in shipyards and land plants as well.
